Application Summary

Applicant Name (Legal name of individual or organization as evidenced by legal documents)

Romney Energy Centre Limited Partnership

Project Name (Project identifier to be used as a reference in correspondence)

Romney Wind Energy Centre

Project Description Summary (This summary should reflect the description in the documents upon which consultation has been completed and if it does not, the difference should be highlighted)

The Romney Wind Energy Centre (the "Project") is a commercial onshore Class 4 wind facility with a nameplate capacity of approximately 60 megawatts (MW) located primarily on private land in southwestern Ontario, within the Town of Lakeshore and the Municipality of Chatham Kent, Ontario. The Project will be owned and operated by Romney Energy Centre Limited Partnership, a partnership between Électricité de France Énergies Nouvelles Canada (EDF EN) and Aamjiwnaang First Nation. A total of 18 wind turbine locations are being permitted for the Project. The main components of the Project include wind turbine generators, meteorological tower(s), access roads, crane pads, electrical collector lines, substation, O&M building and construction staging and laydown areas.

Supplemental Application Information (Provide any other information that might be relevant to your application)

The Romney Wind Energy Centre was awarded 100 points in the IESO Large Renewable Procurement, meaning it had an aboriginal partner municipal support resolutions, municipal agreements and 75% of abutting landowners signed forms to say they were in support of the project. This is a very good indicator that the Romney Wind Energy Centre has been accepted by the local community at all levels.

Note: This form has been save-enabled; you can save a copy of this form that includes any information you have entered.

Additional instructions and information on how to complete the application form can be found in the accompanying "Guide for Completing the Renewable Energy Approval Application".
