

Romney Wind Energy Centre

NOTICE OF COMMUNITY LIAISON COMMITTEE

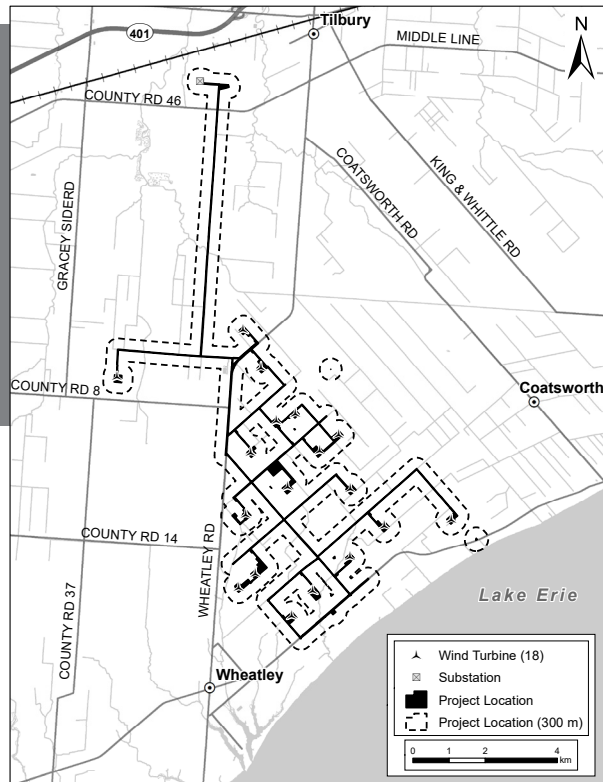

As part of the REA requirements, Romney Wind Energy Centre (the Project) will be forming a Community Liaison Committee (the CLC) to **exchange ideas and share interests with residents and members of the public and Indigenous communities during the construction and operation phases of the Project.** The proposed Project consists of a **60 megawatt wind energy** facility located on private and public lands in the Town of Lakeshore, County of Essex and Municipality of Chatham Kent, south of Highway 401, and extending along Richardson Side Road and east of Wheatley Road north of the community of Wheatley, Ontario.

On April 16, 2018, the Ministry of Environment and Climate Change (MOECC) issued the Renewable Energy Approval (REA) for Romney Wind Energy Centre. The REA approval is an important milestone for the Project as it demonstrates that it is compliant with environmental and provincial government requirements. **The construction phase of the Project is anticipated to begin this fall and eventually leading up to the erection of seventeen (17) wind turbines in the summer of 2019.** All REA reports and REA approval notices are accessible on the project website.

The Romney Wind Energy Centre team is now inviting members of the public to join the CLC, including members of: the public living within 1 km of the Project, the public living outside of 1 km of the project, but having an interest in the Project, agricultural and business communities, Indigenous communities, government agencies, local organizations, and special interest groups. The Committee will include approximately 10 members.

The Committee members will be responsible for attending a minimum of four (4) meetings over a two-year period. Meetings will take place on a weekday evening in Wheatley or Comber, for approximately two hours each. The first CLC meeting will take place early fall 2018.

If you are interested to volunteer for the Romney CLC, please apply in writing (see contact information below) by June 30, 2018. Application forms are also available on the project website. Your application should include the following information: name, contact information, your involvement in the Project to date, your location relative to the project, any organization you represent, and your interests/concerns associated with this project. Membership selection will be based on the need for a balanced perspective on the project in order to present distinct points of view and facilitate effective discussion.

For questions related to the Romney CLC, please contact us or visit our website.
